LRB098 04973 KTG 56171 a

1 AMENDMENT TO SENATE BILL 739

2 AMENDMENT NO. _____. Amend Senate Bill 739 by replacing
3 everything after the enacting clause with the following:

4 "Section 1. Findings. The Illinois General Assembly finds
5 that:

6 (a) School-based and school-linked health centers provide
7 essential mental or behavioral health, health promotion, oral
8 health, and primary care services to elementary, middle, and
9 high school students in many parts of Illinois, providing
10 unique access to services that increase students' ability to be
11 in class healthy and learning.

12 (b) Including these established safety-net providers will
13 increase the health care system's capacity to serve everyone
14 eligible for medical assistance.

15 (c) Since these agencies have already been providing health
16 services to eligible recipients of medical assistance and have
17 unique access to vulnerable populations, excluding

1 school-based health centers from participation in managed care
2 and care coordination programs for eligible recipients of
3 medical assistance will be detrimental to the public's health.

4 Section 5. The Illinois Public Aid Code is amended by
5 changing Section 5-30 as follows:

6 (305 ILCS 5/5-30)

7 Sec. 5-30. Care coordination.

8 (a) At least 50% of recipients eligible for comprehensive
9 medical benefits in all medical assistance programs or other
10 health benefit programs administered by the Department,
11 including the Children's Health Insurance Program Act and the
12 Covering ALL KIDS Health Insurance Act, shall be enrolled in a
13 care coordination program by no later than January 1, 2015. For
14 purposes of this Section, "coordinated care" or "care
15 coordination" means delivery systems where recipients will
16 receive their care from providers who participate under
17 contract in integrated delivery systems that are responsible
18 for providing or arranging the majority of care, including
19 primary care physician services, referrals from primary care
20 physicians, diagnostic and treatment services, behavioral
21 health services, in-patient and outpatient hospital services,
22 dental services, and rehabilitation and long-term care
23 services. The Department shall designate or contract for such
24 integrated delivery systems (i) to ensure enrollees have a

1 choice of systems and of primary care providers within such
2 systems; (ii) to ensure that enrollees receive quality care in
3 a culturally and linguistically appropriate manner; and (iii)
4 to ensure that coordinated care programs meet the diverse needs
5 of enrollees with developmental, mental health, physical, and
6 age-related disabilities.

7 (b) Payment for such coordinated care shall be based on
8 arrangements where the State pays for performance related to
9 health care outcomes, the use of evidence-based practices, the
10 use of primary care delivered through comprehensive medical
11 homes, the use of electronic medical records, and the
12 appropriate exchange of health information electronically made
13 either on a capitated basis in which a fixed monthly premium
14 per recipient is paid and full financial risk is assumed for
15 the delivery of services, or through other risk-based payment
16 arrangements.

17 (c) To qualify for compliance with this Section, the 50%
18 goal shall be achieved by enrolling medical assistance
19 enrollees from each medical assistance enrollment category,
20 including parents, children, seniors, and people with
21 disabilities to the extent that current State Medicaid payment
22 laws would not limit federal matching funds for recipients in
23 care coordination programs. In addition, services must be more
24 comprehensively defined and more risk shall be assumed than in
25 the Department's primary care case management program as of the
26 effective date of this amendatory Act of the 96th General

1 Assembly.

2 (d) The Department shall report to the General Assembly in
3 a separate part of its annual medical assistance program
4 report, beginning April, 2012 until April, 2016, on the
5 progress and implementation of the care coordination program
6 initiatives established by the provisions of this amendatory
7 Act of the 96th General Assembly. The Department shall include
8 in its April 2011 report a full analysis of federal laws or
9 regulations regarding upper payment limitations to providers
10 and the necessary revisions or adjustments in rate
11 methodologies and payments to providers under this Code that
12 would be necessary to implement coordinated care with full
13 financial risk by a party other than the Department.

14 (e) Integrated Care Program for individuals with chronic
15 mental health conditions.

16 (1) The Integrated Care Program shall encompass
17 services administered to recipients of medical assistance
18 under this Article to prevent exacerbations and
19 complications using cost-effective, evidence-based
20 practice guidelines and mental health management
21 strategies.

22 (2) The Department may utilize and expand upon existing
23 contractual arrangements with integrated care plans under
24 the Integrated Care Program for providing the coordinated
25 care provisions of this Section.

26 (3) Payment for such coordinated care shall be based on

1 arrangements where the State pays for performance related
2 to mental health outcomes on a capitated basis in which a
3 fixed monthly premium per recipient is paid and full
4 financial risk is assumed for the delivery of services, or
5 through other risk-based payment arrangements such as
6 provider-based care coordination.

7 (4) The Department shall examine whether chronic
8 mental health management programs and services for
9 recipients with specific chronic mental health conditions
10 do any or all of the following:

11 (A) Improve the patient's overall mental health in
12 a more expeditious and cost-effective manner.

13 (B) Lower costs in other aspects of the medical
14 assistance program, such as hospital admissions,
15 emergency room visits, or more frequent and
16 inappropriate psychotropic drug use.

17 (5) The Department shall work with the facilities and
18 any integrated care plan participating in the program to
19 identify and correct barriers to the successful
20 implementation of this subsection (e) prior to and during
21 the implementation to best facilitate the goals and
22 objectives of this subsection (e).

23 (f) A hospital that is located in a county of the State in
24 which the Department mandates some or all of the beneficiaries
25 of the Medical Assistance Program residing in the county to
26 enroll in a Care Coordination Program, as set forth in Section

1 5-30 of this Code, shall not be eligible for any non-claims
2 based payments not mandated by Article V-A of this Code for
3 which it would otherwise be qualified to receive, unless the
4 hospital is a Coordinated Care Participating Hospital no later
5 than 60 days after the effective date of this amendatory Act of
6 the 97th General Assembly or 60 days after the first mandatory
7 enrollment of a beneficiary in a Coordinated Care program. For
8 purposes of this subsection, "Coordinated Care Participating
9 Hospital" means a hospital that meets one of the following
10 criteria:

11 (1) The hospital has entered into a contract to provide
12 hospital services to enrollees of the care coordination
13 program.

14 (2) The hospital has not been offered a contract by a
15 care coordination plan that pays at least as much as the
16 Department would pay, on a fee-for-service basis, not
17 including disproportionate share hospital adjustment
18 payments or any other supplemental adjustment or add-on
19 payment to the base fee-for-service rate.

20 (g) No later than August 1, 2013, the Department shall
21 issue a purchase of care solicitation for Accountable Care
22 Entities (ACE) to serve any children and parents or caretaker
23 relatives of children eligible for medical assistance under
24 this Article. An ACE may be a single corporate structure or a
25 network of providers organized through contractual
26 relationships with a single corporate entity. The solicitation

1 shall require that:

2 (1) An ACE operating in Cook County be capable of
3 serving at least 40,000 eligible individuals in that
4 county; an ACE operating in Lake, Kane, DuPage, or Will
5 Counties be capable of serving at least 20,000 eligible
6 individuals in those counties and an ACE operating in other
7 regions of the State be capable of serving at least 10,000
8 eligible individuals in the region in which it operates.
9 During initial periods of mandatory enrollment, the
10 Department shall require its enrollment services
11 contractor to use a default assignment algorithm that
12 ensures if possible an ACE reaches the minimum enrollment
13 levels set forth in this paragraph.

14 (2) An ACE must include at a minimum the following
15 types of providers: primary care, specialty care,
16 hospitals, and behavioral healthcare.

17 (3) An ACE shall have a governance structure that
18 includes the major components of the health care delivery
19 system, including one representative from each of the
20 groups listed in paragraph (2).

21 (4) An ACE must be an integrated delivery system,
22 including a network able to provide the full range of
23 services needed by Medicaid beneficiaries and system
24 capacity to securely pass clinical information across
25 participating entities and to aggregate and analyze that
26 data in order to coordinate care.

1 (5) An ACE must be capable of providing both care
2 coordination and complex case management, as necessary, to
3 beneficiaries. To be responsive to the solicitation, a
4 potential ACE must outline its care coordination and
5 complex case management model and plan to reduce the cost
6 of care.

7 (6) In the first 18 months of operation, unless the ACE
8 selects a shorter period, an ACE shall be paid care
9 coordination fees on a per member per month basis that are
10 projected to be cost neutral to the State during the term
11 of their payment and, subject to federal approval, be
12 eligible to share in additional savings generated by their
13 care coordination.

14 (7) In months 19 through 36 of operation, unless the
15 ACE selects a shorter period, an ACE shall be paid on a
16 pre-paid capitation basis for all medical assistance
17 covered services, under contract terms similar to Managed
18 Care Organizations (MCO), with the Department sharing the
19 risk through either stop-loss insurance for extremely high
20 cost individuals or corridors of shared risk based on the
21 overall cost of the total enrollment in the ACE. The ACE
22 shall be responsible for claims processing, encounter data
23 submission, utilization control, and quality assurance.

24 (8) In the fourth and subsequent years of operation, an
25 ACE shall convert to a Managed Care Community Network
26 (MCCN), as defined in this Article, or Health Maintenance

1 Organization pursuant to the Illinois Insurance Code,
2 accepting full-risk capitation payments.

3 The Department shall allow potential ACE entities 5 months
4 from the date of the posting of the solicitation to submit
5 proposals. After the solicitation is released, in addition to
6 the MCO rate development data available on the Department's
7 website, subject to federal and State confidentiality and
8 privacy laws and regulations, the Department shall provide 2
9 years of de-identified summary service data on the targeted
10 population, split between children and adults, showing the
11 historical type and volume of services received and the cost of
12 those services to those potential bidders that sign a data use
13 agreement. The Department may add up to 2 non-state government
14 employees with expertise in creating integrated delivery
15 systems to its review team for the purchase of care
16 solicitation described in this subsection. Any such
17 individuals must sign a no-conflict disclosure and
18 confidentiality agreement and agree to act in accordance with
19 all applicable State laws.

20 During the first 2 years of an ACE's operation, the
21 Department shall provide claims data to the ACE on its
22 enrollees on a periodic basis no less frequently than monthly.

23 Nothing in this subsection shall be construed to limit the
24 Department's mandate to enroll 50% of its beneficiaries into
25 care coordination systems by January 1, 2015, using all
26 available care coordination delivery systems, including Care

1 Coordination Entities (CCE), MCCNs, or MCOs, nor be construed
2 to affect the current CCEs, MCCNs, and MCOs selected to serve
3 seniors and persons with disabilities prior to that date.

4 (h) Department contracts with MCOs and other entities
5 reimbursed by risk based capitation shall have a minimum
6 medical loss ratio of 85%, shall require the MCO or other
7 entity to pay claims within 30 days of receiving a bill that
8 contains all the essential information needed to adjudicate the
9 bill, and shall require the entity to pay a penalty that is at
10 least equal to the penalty imposed under the Illinois Insurance
11 Code for any claims not paid within this time period. The
12 requirements of this subsection shall apply to contracts with
13 MCOs entered into or renewed or extended after June 1, 2013.

14 (i) Nothing in this Section shall be construed to prevent a
15 school health center, certified by the Department of Public
16 Health and designated by the Department of Healthcare and
17 Family Services, from receiving fee-for-service reimbursement
18 for providing services covered by the State's medical
19 assistance program to eligible recipients of medical
20 assistance regardless of their enrollment in a managed care
21 plan or care coordination program or from receiving matching
22 funds for expenditures of local tax revenues incurred in the
23 efficient and effective administration of the State's medical
24 assistance program.
